

Life Sciences Translation

Code
Red!

X

XI

A close-up, shallow depth-of-field photograph of a clock face. The focus is on the Roman numeral 'IV' (4) and the numeral 'I' (1) below it. The clock's hands and the metal casing are visible in the foreground, slightly out of focus. The background is dark and blurred.

Every minute delay in drug R&D
costs \$1,800 in lost revenue.

Most delays in legal and regulatory
processing can be traced back
to inaccuracies in your
documentation and
its translation.

Translation services should not
cost an arm and a leg.

You demand that your translation is precise, error free, linguistically excellent and cost efficient. In a regulated industry, such as Life Sciences, there is no room for error. No other industry requires as thorough an understanding of its regulations. No other industry demands such high quality standards. Translation for the pharmaceutical and biotech industries requires special knowledge. That's where we come in.

One Planet
delivers!

- **Experience:** superb translators reduce the risk of inconsistent or inaccurate translations
- **Technological Leadership:** utilization of XML and content management systems
- **Productivity:** best practices and tools of automation
- **Quality:** ISO 9001:2000 compliant production system assures quality each and every time

- **Consistency:** managing quality issues at all stages of the project, even after delivery
- **Reliability:** always meeting deadlines while maintaining the highest level of accuracy
- **Long Term:** extensive use of glossaries and state-of-the-art translation memory drastically lowers costs while improving quality

Some of our clients include
GE, Siemens, Fischer Industries,
Medrad, Pfizer, Johnson & Johnson,
Merck, GlaxoSmithKline, Phillips

Superb quality translations begins with experience.

Our seasoned translators and editors have produced thousands of pages of technical documentation, clinical trial reports, meta-analysis data and pharmacogenetic studies. We have translated operator and service manuals for MRI, ultrasonic, electron beam tomography scanners and much, much more.

A change for the better.

Our team of translators and editors, led by a selected and dedicated project manager, will become an extension of your team. Your goals become our goals. And your success becomes the only true measure of our success.
